

Lesson Plan 2: How can we improve?

Learning Objectives:

- Develop knowledge of local area
- Analyse evidence, draw conclusions or opinions and communicate findings

Introduction:

Analyse previous weeks data, drawing conclusions. Whole class mind mapping session to discuss ways of reducing amount of litter in school. Refer to website- [THE HEAP](#), to look at examples of good practice.

Main Activity:

Lower Juniors:

Practical designing activity to encourage reduction of litter in the area
e.g

- Posters to encourage litter to be put in the bin
- Design a bin that younger children would find more appealing to use
- Designing a logo to be painted on an old jam jars for reuse as a vase

Upper Juniors:

Refer back to previous weeks group findings. Each group will need decide on a practical solution for improving the area studied previously. See above for possible improvement ideas.

Plenary:

Share design ideas then discuss any initiatives which children have seen in place, e.g 'Thanks Banks' in Cardiff centre, Poster campaigns, Bottle banks in car parks, chewing gum/ cigarette butt bins.
